## Participant Evaluations for 10.13.11

Voting Prompt

All participants Subgroup
C-I liked using the interactive technology
H-I am planning on participating in future Community Design
Workshops (and will bring a friend!)
A-Today's workshop was successful
G-I believe that the design is headed in the right direction E-I felt my concerns and ideas were heard and valued F-Today's workshop helped my thinking about this project. B-I liked the format of this Community Design Workshop D-I liked having small group conversation

## Areas We Feel Good About

Voting Prompt

All participants Subgroup
G-It feels like it can really be used by the community.
B -The multi-use ampitheatre.
L-the respect given the community in doing this process.
F-Separation of HS from Elementary school is good.
E -The security sub-station at the entry to the Community Commons at the San Pablo St. entrance.
I-Physical appearance of the San Pablo St. side - it's pretty, not all buildings.
A-The whole direction it's going in.
J-Good flow for human foot traffic - people walking at the entrances.
K-dual use of the fields.
H -Separation of the community from the school.
D-The public open space inside the Community Commons area.
C-Gateway plaza is working well.

## Additional Recommendations

## Voting Prompt

All participants Subgroup
K-Concern about the security - we need more information and

Q-we need to make a presentation at a future workshop that shows the flow of the day with a detailed schedule, curricullum, flow, etc.

C-There's a current planning process by the City for the 53rd and 47th street pedestrian and bicycle crossings - we need to be coordinating with the citv on this effort. L-More roof-top uses across the whole design - solar panels, green roofs, observatory, sky-lighting.
M-More centralized and larger location for a school garden with effective access. This means keeping a school garden program and making it visible in the plans.
A-Increase the size of the Theatre so it can accomodate the whole school.
P-we need larger community locker rooms with at least three to four showers for the women.
G-K-8 play areas are too small and need to be bigger.
B-Access regarding the public and the students sharing common areas - make sure that the public and the students are separated in the library.
D-There should specified covered Parking for faculty only. (students should not have covered parking)
O-Bike parking - there needs to be at least one area of covered by bike parking.
F-The K-8 play areas should be divided by age group areas better.
N -Traffic flow - overall flow with the roundabout proposal and dropoff. We're concerned with how effective it will be in the real world.

J-We can go taller with some of the buildings to provide more ground floor space.
H-Better physcially connect and make closer the arts and STEM Center with the K-8 program.
I-Reconsider the need for a bicycle path along the Emery Bay Village edge. (connecting 47th to 53rd Street)
E-Reconsider having two gyms. (because the public doesn't use the gym at the same times as students).
